THOUSANDS RUINED BY THE TROUBLE

Stock Market Not Likely to Be Affected Further - Evidences of Business Prosperity - Exports From New York.

NEW YORK, Dec. 15 -One of the chief of the hopeful features of the present stock market outlook is the apparent disposition of the street not to consider the Copper episade longer a factor of importance. The trade situation and the manip ulation of the stock are regarded of interest, but it is an academic interest almost wholly. In such a blind pool as Amalgamated has proved itself to be predictions are not of much value, but it may be said with entire truth that if it were believed that the general market would be acutely affected by a further break in the stock. the holders of other securities would not be nearly so complacent or cheerful as the majority of them are at the present

A Lower Price Probable.

Copper again vesterday made a new low the Amalgamated Copper Company is that the management has made a stupendous blunder in its attempt to crush its comrecord, and despite the assurances sent out from an institution known to be closely associated with the inside pool in Analgamated Copper, that the bottom had been reached and the Copper war was oven, there appears to be a very fair chance that the bear campaign has not yet reached an end, and the conclusion is irrealstible that these staries of a settlement were disseminated for the purpose of allowing the manipulators to put out fresh lines of shorts, in preparation for a renewed attack upon the stock.

a renewed attack upon the stock.

There has never been, conservative financiere declare, a more striking evidence of the thorough unacrupulousness.

of these who control the movements of Amalyamated Copper stock. There is apparently some warrant for the suspicion that the insiders in Copper to the stock early in the week was solely of the stock in the belief that the lew point had been resched and that further declines were practically impossible. An officer of one of the corporations intimately allied with the Copper pool is said to have personally assured several of his friends in Wall Street that the stock had reached its low point and was now a purchase. In justice to several of the Standard Gil magnates it may be said that they for the purpose of getting the public long of the stock in the belief that the low point had been reached and that further ard Oil magnates it may be said that they have thoroughly disapproved of the methods employed by some of their col-

leagues in the Copper scandal. The City Bank and Loaning Rates.

result not of conditions affecting intrin-sic value, but of speculative considera-tions. Poels in St. Paul, Manhattan Rail-The flurry in money which took place on Thursday last was, by a significant coincidence, accompanied by a audden ecincidence, accompanied by a sudden and vicient attack upon Copper and the withdrawal of the support which some of the sharp advances in the prices of those the so-called Standard Oil brokers had Doen giving the stock for four days. The National City Bank on that day raised its money rate from 6 to 10 per cent. De-spite the mild denials of some of its of-The and naturally when adverse speculative dits conditions became operative, as they did this week, the market reflected the distri-

of foreign exchange. It was afterward conceded that the shipment was in the nature of a special transacation. The money was sent to the imperial flank of Germany for the purpose of enabling it to bolster up its balances for the end of the year antilement. the year settlement.

Ruined by Copper's Trouble.

The widespread ruln which has been caused by the smash in Coperr can hardly be appreciated, conservative bankers say, by the casual observer of events in Wall Street. It has extended to every quarter of the country and to every community.

of the country and to every community. It has invaded the homes of the rich and poor alike. It has swept away the widow's mite and the heritage of the orphan. A prominent banker declares that he knows personally of many cases where the moderately well oft had invested all of their savings in the stock when the company was floated three years ago with such rlowing promises by its promoters, and, led on by their renewed assurances last spring, had borrowed money on their holdings in order to make additional purchases on margin. All of these pyramided accounts have been swept away by the late declines.

One of the most striking evidences of One of the most atriking croatness of the general luminous prosperity which un-deubtedly exists, despite the troubles of the Amaigamated Copper Company, in shown in the enormous increwe in com-merce at the port of New York. The an-rual report of the Chamber of Commerce to the found your goods time 30, 1961. for the fiscal year ended June 20, 1961, about to be issued, will show an increase in the export and import business of the pair of New York of \$19,642,073, while the increase of the total foreign com-mores of the United States during that period had been \$101,312,435.

Electrical Construction Active.

Despite the falling off of electrical construction in Europe, the husiness of the great electrical companies of this country is constantly on the increase. The Gen-eral Electric Company has been at prop-perous that it has decided to distribute \$17,000,000 in stock to its shareholders, in compensation to them for the reduction in the capital stock made necessary dur-ing the vicinsitudes of the first years of the present decade. The Westinghouse Electric Company is equally prosperous, and it is now reported that plans for the benefit of its stockholders also are being

to be disbursed on January 1 for dividends and interest is unquestionably an important factor sustaining the markets for securities, particularly that for firstclass, and even second grade bonds. Moreover, the time is approaching when money usually returns to this centre from the interior, thus providing funds for more extensive operations in stocks than are warranted at present.

The movement of specie phroad surgary

The movement of specie abroad appears to have been practically completed. Germany has, according to all accounts, secured what gold it required in order to A fifth of the entire business of the make a good financial showing at the end make a good financial showing at the end of the year, and present indications are that the indebtedness to Great Britain and France may, from this time on, be liquidated by a freer movement of ection and provisions, particularly the former, Moreover, London has been baying stocks in this market on a small scale for more than ten days past.

Canada Southern's Dividend.

Among the events of last week in the railroad world was the increase in the semi-annual dividend of the Canada cause the dominating interest in the management of the Amalgamated Campany
the alteral oil trade of the country, that
its business juigment is infallible. Moreover, the amount of capital outside of the
Amalgamated Copper Company engaged in
producing copper is too large to be susceptible to the same methods of coercion
that proved successful in concentrating
the oil industry.

MARCELLUS COLE ON TRIAL TODAY

INDICTED ON CHARGE OF MURDER.

Delay in Other Homicide Cases Like ly-No Provision for Empaneling Jurors in New Code During Month of January.

Marcellus Cole, colored, will be placed on trial this morning before Justice Barnard and a jury for the alleged murde of Albert Hawkins, also colored, in August last at Deanwood Park. The prisoner has not yet been arraigned.

Cole and several others, who are under indictment, were brought from the jail to the City Hall on Friday last to make pleas to the charges against them, but were unable to do so because of the court being occupied with other important business.

The crime of which Cole is accused i said to have been the result of had feeling of long standing between him and Hawkins. Hawkins had been spending a day at a picnic at Deanwook Park. During the latter part of the afternoon Cole it is said, visited the park

Pleaded Self-Defence.

On his arrival there he met Hawking and a quarrel resulted. They came to blows, and it is alleged by the prosecu tion that Cole drew a knife from his pocket and stabbed Hawkins fatally. Cole declared after the tragedy that he

It is expected that the trial will not continue long. The case will probably be submitted to the jury by Wednesday

acted in self-defence and to protect his

afternoon

The fact that Justice Anderson, presiding in Criminal Court No. 1, was occu pled in the trial of the Bonine case and that Justice Barnard has been afforded but little opportunity during the past month to take up the consideration of eriminal cases, will necessitate both thes branches of the Supreme Court of the District being devoted exclusively to the disposition of "jail cases" from now until he beginning of the Christmas holidays.

There are four other persons beside Cole in the District fail held on the charge of murder who will be called to trial as soon as practicable after the holidays, if the proposed special amend-ment to the new code is enacted provid-ing that the jurors for the month of De-cember, now serving, be permitted to do jury duty during the month of January

No Provision for Jurors.

Under the new code no provision is made for the empaneling of juries for the circuit and criminal branches of the Supreme Court of the District for January, and to provide against a delay in the trial of criminal and civil cases during that month an amendment to the code will be offered by which jurous drawn for

instead of thirty days.

If the amendment is not adopted the trial of jury cases will necessarily be postponed until February. Under such circumstances the consideration of the Utermeble and McPherson will contests will be delayed at least a month.

Failure to Provide Charged

When Henry N. Poscy awoke from a Saturday night drunk last night in one of the cells at Seventh precinct, he found that there was a warrant on file for his arrest charging him with failure to support his wife and two children. His wife, Laura E. Posey, who supports in a poor way her two children and herself, is the complainant. The case will be called in
